

Gowns and dresses for Holy Mass must cover the shoulders, neck, and bodice, and cover the knees with no slits up the side of the dress. Gowns with small straps are acceptable IF a WRAP is used as shown. The bridal dress below covers shoulders, most of the bodice. Brides and bridesmaids who expose shoulders, any part of the breast or back, or knees will not be admitted into the bridal party procession or seating.

Please dress decently for Mass, and instruct your bridesmaids to do the same.

These dresses are NOT appropriate for Holy Mass for anyone in the bridal party because they expose the shoulders, neck and bodice area.

1. The shoulders must be covered
2. The length of the dress must go below the knee.

All the dresses here are fine for the length but NOT for the neck, shoulder and bodice.
