

Fr. Perozich comments —

Utopia on earth is being pushed in the church these days. This is the reason for posting Linda Kimball's article.

Dioceses and bishops' conferences are convening talks on race and inherent racism teaching the ideas of the cultural elites.

The John Paul II Institute on Marriage and Family is being redesigned in its faculty and course work.

Some world leaders have been honored at the Vatican in spite of those leaders' pro abortion advocacy.

Much wasted words and much wasted time are spent in the church to herald a utopia on earth.

*In the short run, **Cui bono: who benefits?** Is money being given to the church leaders who do this either personally or for their dioceses?*

*In the long run, when the goals of the promoters are accomplished, those used to promote them will be **canceled** because they will no longer be needed.*

Should not time be spent on preparing everyone to evangelize the world so that all believe in Jesus as the Savior? Is that not what my baptism into His body requires of me?

The Catholic Church and each Catholic from the pope to the lay person is charged to proclaim Jesus Christ as the only way to salvation.

Man is born again, saved from sin, death, and isolation for goodness, eternal life, and communion with God and with one another.

The poor will always be with us, and each of us has a personal responsibility to help those in need.

Government systems reward those in charge and make everyone else miserable.

Marxism pits the worker against the business owner.

Progressive utopian cultural Marxism poisoning minds, churches, schools, politics

By [Linda Kimball](#) **March 23, 2021**

During the Synod on the Family in 2015, Dr. Maria-Anca Cernea, the president of the Association of Catholic Doctors of Bucharest, Romania recounted how her parents survived the violent classical form of Marxism during four decades of Communist rule in the 20th century.

During that time almost all the Catholic bishops in the country and countless religious and lay people were sought out, imprisoned, and often tortured and killed, their bodies buried anonymously in fields. [1]

Classical Marxism, said Dr. Cernea,

- “... attempted to remake society by the take-over of private property” **Cultural Marxism, however, "goes deeper; it pretends to redefine family, sexual identity and human nature." This ideology which "calls itself progressive...is nothing else than the serpent's offer for man to take control, to replace God, to arrange salvation, in this world."** (Dr. Cernea)

Dr. Cernea’s talk about the past reveals similarities to our own time:

- “The primary cause of the sexual and cultural revolution is ideological...It was first done under a violent form, classical Marxism, by killing tens of millions. (But this is the same project) to redesign society...Now it’s being done mostly by cultural Marxism. There is continuity from Lenin’s sexual revolution, through Gramsci and the Frankfurt school, to the current-day gay-rights and gender ideology.”

Dr. Cernea's warning is timely and urgent as there's a **growing trend among** conservative Evangelical, PCA, Reformed, Anglican, Eastern Orthodox, and **Roman Catholic thinkers of adopting utopian Marxist ideologies for political, religious, and cultural interaction. These same poisons are infecting politics, universities and grade schools as well.**

One glaring example of this is the widespread acceptance of Critical Race Theory, an invention of the Frankfurt School—the devils think tank – within the church, political arenas, schools and academia:

- “Last year, the Wake County Public School System, which serves the greater Raleigh, North Carolina area, held an equity-themed teachers’ conference with sessions on “whiteness,” “microaggressions,” “racial mapping,” and “disrupting texts,” encouraging educators to form “equity teams” in schools and push the new party line: “antiracism.” (Subversive Education: North Carolinas Largest School District

Launches A Campaign Against 'Whiteness' In Educational Spaces, Christopher F. Rufo, The Atlantic Journal, March 17, 2021)

When seminarians, politicians, and academicians peer through the serpent's sinister ideological lens of Critical Race Theory they see our society, its schools and churches corrupted by ingrained white racism. Then this illusory 'data' is used to tell churches what is required for 'racial reconciliation' and schools and politicians how to purge our society of 'white privilege,' 'white oppression' and 'whitewashed curriculum' that is doing 'real harm to our students and educators.'

Rev. Sam Murrell, a black Anglican priest in the Anglican Church in North America, will no longer participate in racial reconciliation services. As a teacher of worldview Rev. Murrell has identified the myths, lies, and anti-Christ presuppositions operating at the foundation of the concept of racial reconciliation services:

- "Words Matter. As people of the Word, language is important and I believe it is time the Church gave up the common use of the word 'race' and all of its cognates. They only help to perpetuate an untruth about the nature of mankind. In the anthropology of Scripture, race is an alien concept. Scripture does not speak of 'the races' as subsets of humanity, but it does speak of 'tongues (which can be translated as religions), tribes and nation.' **As long as the Church concedes to the terminology of a**

Darwinian worldview we will never get closer to modeling the oneness of the Body of Christ for the world that is spoken of in Scripture. The Church must not capitulate to the secular world on this matter and put words into our mouths, and in doing so perpetuate a false reality." (Why I No Longer Participate in Racial Reconciliation Services, Rev Sam Murrell, Aquila Report, Jan. 25, 2018)

Critical race theory – the illusory need for racial reconciliation services and the purging of ‘whiteness’ from our society – is grounded in a mixture of ancient and modern mythological elements ranging from pagan materialism and mystical Eastern pantheism, to dehumanizing anti-creation Darwinism, evolutionary biology, scientific racism, a hierarchy of races, and sinister Frankfurt School constructs. Underlying all of this swamp is the poisonous Marxist view of traditional American society and traditional middle class Americans who support it as fascist, authoritarian, racist, sexist, homophobic, xenophobic, mentally ill, and in every way more evil than Hitler's Germany:

- "In Aug., 2003, the National Institute of Mental Health (NIMH) and the National Science Foundation (NSF) announced the results of their \$1.2 million taxpayer funded study. It stated, essentially, that traditionalists are mentally disturbed. Scholars from the Universities of Maryland, California at Berkeley, and Stanford had determined that social

conservatives...suffer from 'mental rigidity,' 'dogmatism,' and 'uncertainty avoidance,' together with associated indicators for mental illness." ('Social and Emotional Learning" edwatch.org, Jan. 26, 2005)

The Frankfurt School was a Marxist think-tank. Its poisonous inventions consist of diabolical psychological mind-control devices such as Political Correctness, Identity Politics, Cultural Determinism, and Critical Theory, the parent of Critical Race Theory. [2]

Critical Theory is a malevolent psy-op weapon, a battering ram of linguistic sophism used against the minds of humans to induce confusion, disorientation, cognitive dissonance, loss of identity, shame, false guilt, and collective 'hive-mind' responses.

For Americas power-mad Ruling Class, Critical Theory is a malevolent license issued by the devil they worship to unleash terroristic outpourings of hatred, contempt, ridicule, and destructive criticism to beat and batter Americans into insanity and submission.

Similar to its parent, **the aim of Critical Race Theory is the pressuring, battering, and guilt-shaming of mainly white conservative Christians and other decent, law abiding middle class Americans into accepting a false burden of racism and other sins for which they must repent and atone.**

Marxist Utopianism

Marxism is an anti-Christ revolutionary utopian ideology from hell that counterfeits Scripture in many ways. For instance, it secularizes eschatology in order to present a millenarian belief in a coming transformation of the world after which 'all things will be changed' and a New Man will dwell in heaven on earth.

Marxism's illusory heaven on earth represents a complete break with history by-passed by the spirit of evolution and is always modeled,

- "... on some image of the lost Paradise, of a legendary Golden Age." Hence zealous religious devotion to "pure Utopia, and revolt against a polluted society, are thus the two poles which provide the tension of all militant creeds." ("The God that Failed," Arthur Koestler, p. 16, 12)

Classical Marxism links mankind's worldly redemption to an oppressed class, combining the Old Testament concept of a chosen people with the New Testament prophecy that the meek shall inherit the earth. (Heaven on Earth, Joshua Muravchik, p. 341)

Original Marxism's oppressed class was the workers class. Workers were oppressed by 'demons' in the form of capitalist victimizers, property owners, priests, and the church. **Cultural Marxism (also multiculturalism) replaces the workers class with four oppressed races – blacks, LGBTQ+, illegal aliens, and women. These four races are victims in**

desperate need of liberation from the race of white oppressors.

In this version of events, oppressed races are victimized and oppressed by a race of demons – the genetically racist, homophobic, sexist, xenophobic oppressor race – the socially conservative mainly white Christian and conservative population, particularly Donald Trump and straight white men in general.

Though redemption is not possible for the white race since their evil is genetic, it nevertheless begins for them with undiscerning, unthinking, submissive acceptance of the original sin of racism and their need for confession and atonement during racial reconciliation services. Thus the premise of the worship said Rev. Murrell,

- "... is that Whites are guilty because they are White. This is evident in the fact that the white people present at such events are expected, even pressured, to confess the sin of racism even if they cannot recall any specific instances of racist action that they have perpetrated.

The assumption is that because you are white then you must have knowingly, or unknowingly, caused offense towards Blacks (and maybe other ethnic minorities too). An example of this guilt-by-association is that, although you may be unable to find any instance of slave ownership in your genealogy, you are held accountable for the history of slavery in

the United States of America.

- The black person stands as representative of the innocent victim of so-called racism and thus serves a priestly role for the white confessor who is guilty because of a lack of melanin in the epidermis. The white person's pigmentation carries with it a privilege, and that is enough to require repentance."

With classical and Cultural Marxism, no human being is actually redeemable since all humans are depersonalized, soulless aspects of the evolving collective unconscious.

The New Man

Marxism's scientifically engineered New Man is an illusory coalesced complex form of matter – a product of evolution working on matter from the void and 'begotten' by the Sovereign World God State.

The New Man has lost all sense of individuality and conscience and exists drone-like in collectivized (totalized) society as a natural resource, a part of the whole, made for the whole, and relatively worthless if not coalesced within the collective hive-mind.

Marxism is but one of many modern scientific utopian ideologies. Global Transhumanism with its utopian Great Reset is another:

- “The WEF’s Great Reset, aka Technocracy and which is enthusiastically backed by global banks and corporations, intends to turn the citizens of the world into digital assets for the sake of management, control and profit. Instead of being a human, you will be a blip on the blockchain which will be used to micromanage you. This is not speculation. It is plainly stated across globalist documents all around the world and in many languages. Once a global ID system is in place, it will be tied to every move and purchase you make, along with every psychographic and physical aspect of your life – cradle to cradle. Why cradle to cradle? Because DNA and genetic engineering will play a central role. “ Patrick Wood, Technocracy News

Utopian ideologies share in common the reduction of the human being to soulless aggregates of matter, holons, or with Transhuman Technocracy, digital assets.

The utopian system begins its dehumanization process through social engineering by teaching humans that they are the product of evolution working on matter. Acceptance of the teaching allows for deconstruction and depersonalization. In this way the sense of their individual souls, intellect, free will, and conscience eventually fade to black since all four are shown by 'science' to be illusions.

Social engineering allows the New Man to imagine he is a bio-machine or holon rather than the image bearer of the Triune Creator. This allows the New Man, such as antifa, BLM, LGBTQ+, and progressives, to sink into passive slavery to instincts and

passions. Thus, since the New Man has no real choice, whatever harm he does to others can never be his fault since 'science' has liberated the New Man from the burden of free will and cast him as victim of 'white' oppression. In this way, the New Man can fully enjoy his vices as a slave within a deterministic system of cause and effect.

Far from redeeming the New Man however, social engineering has but brought back the old man:

- “For men will be lovers of themselves, lovers of money, boastful, arrogant, abusive, disobedient to their parents, ungrateful, unholy, unloving, unforgiving, slanderers, without self-control, brutal, despisers of good, traitorous, reckless, conceited, lovers of pleasure rather than lovers of God.” 2 Tim. 3: 2-4

Scientific engineering is based on the proposition that since man has evolved over millions of years from a genderless blob of matter to a sub-human genderless bio-machine then logically he will evolve over time into something better or 'post human.' Additionally, since man has evolved from genderless matter then nothing can be said against LGBTQ+ and transgender.

Furthermore, it is the Elect, such as today's Global Transhumanists – the already highly evolved and purified post-human race of god-men – the avatars of divine history leading the world to utopia – who possess the

godlike power to scientifically engineer the New Man who worships his 'creators.'

Transhuman Technocracy, classical Marxism and its contemporary form, Cultural Marxism, are forms of utopianism that posit the notion that **science, evolution (the divine creative energy), technology, and a God-like Elite can fulfill the utopian dream of purging the world of evil on the day of revolution** (the day of Wrath; Zephaniah 1:14-15; Romans 2:5).

Utopia will finally arrive when the oppressed classes, acting as wrathful redeemers, damn and destroy the demonic oppressor race and their society of evil. That day will usher in a utopian heaven on earth.

Why the Utopian Dream Will Not Die

Utopianism is an anti-Christ religion that is a perennial heresy. It is,

- "...man's second oldest faith," man's "great alternative faith," Its promise is "Ye shall be as gods." Its vision is "the vision of man without God," of "man's mind displacing God as the creative intelligence of the world," of "man's liberated mind...redirecting man's destiny." Marxist utopianism proclaims an inescapable choice between two irreconcilable faiths: "God or Man, Soul or Mind, Freedom or Communism." (Whittaker Chambers, *The Conservative Intellectual Movement in America*, George H. Nash, p. 92)

In his masterful book, *"Utopia: The Perennial Heresy,"* Thomas Molnar (19210-2010), a Catholic philosopher, historian, and political theorist, writes that utopian systems are illusory patterns of thought with their own strange logic, expectations, and interpretive mechanisms. Thus reality and real data do not substantially influence the utopian thinker since he is able to fit the data, even the Word of God, onto the Procrustean bed of his desires and to find encouragement in the most evil events. Thus he automatically dismisses realistic appraisals of his utopian schemes as from those who are against Progress, Evolution, Science, Peace, and Plenty.

Furthermore, in all messianic utopian thinking, Christianity is an arch-enemy because the utopian message of salvation is utterly incompatible with basic Christian doctrine, that of original sin,

- "...with its vision of history as the story of the Fall, and its denial of man's power to attain salvation by his own exertions. The dichotomies of soul and body, etc., stood condemned before the majesty of the oneness of Life and oneness of History..."

•
For these reasons, Marxist utopians purified the human gene pool in Russia by murdering in excess of 100 million men, women and children of which approximately half were Christians.

According to Srdja Trifkovic, persecution and martyrdom of Christians under 20th century Marxism, and mainly of Russian Orthodox Christians under Communist Bolshevism,

- "... is by far the greatest crime in all of recorded history.... Attempts at "killing the soul" started only months after the Revolution of 1917." Persecution and martyrdom was, "several times greater than the Holocaust in terms of innocent lives brutally destroyed. It has killed more Christians in a few decades than all other causes put together in all ages, with Islam a distant second as the cause of their death and suffering. And yet it still remains a largely unknown, often minimized, or scandalously glossed over crime." (New Martyrs of the East and Coming Trials in the West, SrdjaTrifkovic, Orthodoxy Today)

In our time, the last bastions of orthodox Christian faith and conservatism are being invaded by the serpent's poisonous system of utopian Marxism, a perennial heresy that from Cain in the pre-flood world to our own age has been man's,

- "...second oldest faith," man's "great alternative faith," Its promise is "Ye shall be as gods." Its vision is "the vision of man without God," of "man's mind displacing God as the creative intelligence of the world," of "man's liberated mind...redirecting man's destiny." Transhumanism's Great Reset and Marxist

utopianism proclaim an inescapable choice between two irreconcilable faiths: "God or Man, Soul or Mind, Freedom or Communism." (Whittaker Chambers, *The Conservative Intellectual Movement in America*, George H. Nash, p. 92)
